280-EV6151SV-CH-20	Sure-Lock Wheel Ratchet	Yellow	ABS	Vented
280-EV6151SV-CH-11	Sure-Lock Wheel Ratchet	Black	ABS	Vented

### COMFORTABLE SECURE FIT

Fully adjustable 4-point chinstrap with quick release buckle. Easy to use Revolution™ wheel ratchet and 3D adjustment that offers 1-2-3 point harness depth settings for a perfect fit.

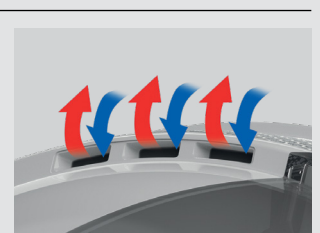

### INCREASED PROTECTION

The EVO® safety helmets are designed with an extra protection zone on both the sides and the back of the hard hat. This shell design provides the wearer with approximately 10% extra protection when compared to a standard shell design. This helps to protect areas of the head that would otherwise be exposed.

### FIRM RETENTION

The low nape strap provides a secure fit, allowing the hard hat to stay on your head, even when you're looking down or bending over.

### VENTILATION\*

The shell is dual vented to increase comfort and allow a cooling air flow, reducing helmet temperature by an average 4-6 degrees.

\*OPTIONAL

### EPP LINER

Added shock absorbing protection. The EPP liner is vented to permit airflow and improve comfort

### JSP EVO® 6100 ASCEND™ - FULL BRIM
